Ptahlemose, Amenemhet Hatsatet

The Hidden Book of the Emperor of Jade and Gold

Self-published, The City of the Pillars of Jade and Gold , 29875

A collection of secret rites and enchantments created by the first Emperor to secure his rule, ensure military victories, guarantee economic prosperity, expand his empire, and maintain the loyalty of his subjects. The key ingredient of these rites is the sacred water of the Eternal River, which must be collected from the headwaters at the darkest point of a solar ...

Notes:

The book was stolen by the youngest daughter of the 103rd Emperor; she spent ten years making her way to the Library, pursued the entire way by agents of the Emperor. The book now rests secure in our most heavily fortified vault. This is the only known copy and may not be removed from the vault.
