**Please Wash Your Leaves**

, 2002

This small zine discusses ways that tealeaf diviners must care for their equipment. Though it does not include instructions for actual divination, you will find within everything you need to know to pick, preserve, and serve the best ethically sourced teas for your work. You'll also find a recipe for sage water, which you'll need to cleanse your kettle and ...

**Notes:**

No publication information is included, likely self-published given the format. The zine looks to be typewritten and then Xeroxed. The cover features a crude blockprint of a tea cup and saucer.
